Grade/Content/Level District - Compliance Coordinator

Interviewer's Name Shawn Weisser

Instructional Compliance Coordinator Interview Questions

- 1. What do you foresee to be the biggest challenge in the implementation of your duties as a Compliance Coordinator?**
- 2. What is your philosophy on discipline?**
- 3. What do you see as the challenges, as well as benefits, of working for an urban school district like Richmond Public Schools? How will you meet these challenges?**
- 4. Describe the strategies you will use to prepare teachers/staff to embrace exceptional education students in a collaborative (inclusive) setting.**
- 5. How do you foster a healthy culture and climate for exceptional students and staff? Provide examples.**
- 6. A parent calls to complain that their child feels that he/she is not receiving accommodations. How will you address the situation?**
- 7. How will monitoring data ensure student achievement and compliance? What data should be included in goal achievement as it pertains to the IEPs?**
- 8. Scenario 1: Bobby has a learning disability in reading. He is overwhelmed by long reading passages because he cannot read on grade level. Bobby needs to learn about the main idea and supporting details. The teacher provides Bobby a story on his reading level. Bobby only has to identify the main idea while the rest of the class must identify the main idea and supporting details.**
 - a. Is this an example of an accommodation or modification?**

b. Are there other ways to address this student's need? _____

9. **Scenario 2: Steven is an eleventh-grade exceptional education student who exhibits anger frequently. He talks back to teachers and often misses class, causing him to be behind in his work. Steven's favorite class (when he attends) is History class with Mr. Michaels.**

a. Due to the accumulation of discipline referrals, can a manifestation hearing be held?

10. **Scenario 3: Jamie was placed in the gifted program for elementary and middle school, at 16, he knows everything about the Civil War, writes beautifully, and can talk endlessly about politics. Yet he needs a calculator to help him with even the most basic math.**

a. What data would support the Least Restrictive Environment for Jamie?
